SUMMARY

A Software Engineer with over 3+ years of industry experience building web applications. I am highly vast in the use of ReactJs in creating seamless / functional UI (User Interface), scalable and reusable for both smaller and larger projects.

I have worked with multiple brands across different fields (E-commerce, Fin-tech) and 1 of my current product has over 500+ users monthly.

TECHNICAL SKILL SET

Reactjs, NodeJs, Bootstrap, JavaScript, CSS3, Git, Figma, Adobe Photoshop and Responsive Design

WORK EXPERIENCE

Orisfina Computer Institute | 2019 – 2021

Frontend Developer

- *Worked with a team of engineers in designing the institute web platform using ReactJs and Sass for maintainability and scalability purpose*
- Handled all composition, color, illustration, typography, and branding for OCI website. Turned in projects an average of 5% faster than targets.
- Designed Interface on OCI portal to suit to given FIGMA Designs using React.js, Styled-components and React-Bootstrap
- I optimized the User Interface (UI) to ease the registration of students which lead to an increase in the numbers of registered students (*over 200+ registered in the first 3 months*)

Tech stack used: *ReactJs, Bootstrap / Sass, Axios, React- Router*

Freelancing | 2021 - Present

Frontend Developer

Below are some of my most recent projects:

SHADY STORES

Designed and Launched an E-commerce website for Shady Stores with over 500+ users monthly.

- Designed the UI (User Interface) using Figma
- Consumed API data's using axios to interact with Backend Data for Payments.
- Integrated a payment system for easy payments of Goods

Technologies used: *ReactJs, Sass, Axios, React- Router*
